Education

Parul University (2024 - 2028)

Bachelor of Engineering in Computer Engineering

Specialization: AI/ML

Projects

1. AI Chatbot (Dummy Project)

- Developed a simple AI-powered chatbot capable of handling basic user queries using Natural Language Processing.
- Implemented using Python and Flask, with integration of a basic ML model trained on predefined datasets.
- Tools: Python, Flask, scikit-learn, HTML/CSS
- GitHub: Coming Soon

2. Portfolio Website

- Designed and developed a personal portfolio to showcase skills and projects with responsive UI using Tailwind CSS.
- Integrated dark mode, smooth navigation, and downloadable resume functionality.
- Tools: HTML, Tailwind CSS, JavaScript
- Live: Currently under development

3. To-Do App (Dummy Project)

- Built a basic task management app allowing users to add, delete, and mark tasks as complete.
- Focused on clean UX, data validation, and responsive layout.
- Tools: HTML, CSS, JavaScript
- GitHub: Coming Soon
